

45-49 Health Assessment

Are you in the 45-49 old age group?

Do you have at least one of the following (or other) risk factors that could lead to a chronic disease later in life?

- High blood pressure
- Family history of disease (e.g. Cancer, heart Disease, Diabetes)
- Inadequate exercise
- High cholesterol
- Smoking
- Overweight
-

If yes, you could be eligible for a free* health check.

Ask your doctor here at Noosa General Practice for more details. The aim of the health check is to help find, prevent or lessen the effect of disease. After all, it is better to avoid disease than to treat it. This health check will give us the opportunity to look at your lifestyle and your doctor and nurse can support you by:

- Checking your lifestyle for health risks
- Giving you personalised advice on how to reduce your risk or illness by making some healthy changes
- Providing you with practical advice to help you improve your health
- Putting you InTouch with expert advice, information and support.

Please see reception to make an appointment or call 5474 10 66 for more information.
